

Want to save the world?

A business degree can help you to propel businesses into a sustainable future while looking after people and the planet.

With a Bachelor of Commerce you will develop key business skills required to play an influential role in the businesses of tomorrow. And put them into practice with projects and internships.

- Communication skills
- Planning and coordination
- Interpretive and analytical thinking
- Cultural awareness, ethical behaviour and a global perspective
- Problem solving skills
- Computer skills
- Numerical confidence
- Research design and data collection skills
